SUPERVISORY PATENT EXAMINER

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues that Simon fails to disclose Applicant's invention as claimed. Simon discloses inserting the instrument to a predetermined depth, figure 10, the depth determined by an augmented view with the virtual depth marker, figure 10. Simon further discloses a predetermined feature of the instrument, col. 7, lines 62-63, (the instrument 140 embedded with emitters or reflectors 151), which remain external to the real object during insertion, figure 1. Applicant argues features that are present in the prior art that is not present in Applicant's invention. However, this subject matter is not claimed.
